

NU Library – Printing from an iPhone

See detailed directions with screenshots at <https://niagara.libguides.com/mobile-printing>

1. Make sure you are connected to the campus *PurpleHaze* wifi network
2. From whatever document/app you want to print from, tap the printer icon
3. A printer called **hold-queue** should show up as an Airprint printer on your device automatically. If a different printer name is listed, tap the name.
4. Scroll through the list of available printers, to find **hold-queue**. Tap the name.

5. You'll see a box asking you to login. See the back of this document for more information on logging in. Then tap OK.

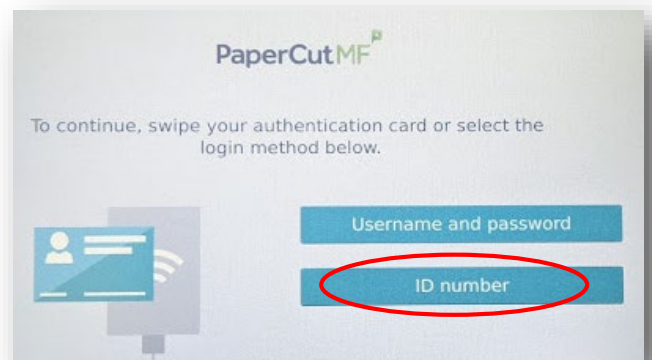

6. Tap the word *Print* at the top right corner.

Retrieving Your Print Job

- You can retrieve your print job from any printer.
- Tap *ID Number* on the screen.
- Then enter your 7-digit ID number without the letter S, such as: 1234567
- Then tap *Print Release* to see your print jobs and print them.

When printing to the campus print network, you will be asked to login with your **PurplePass username and password**.

Individual devices seem to differ on what they accept as your NU username, so try each of the 3 options below to see if one of them will work. The password is your NU email/purplepass password.

1) Email address, written WITH the word "mail":

Example: **jsmith@mail.niagara.edu**

2) Student ID number, formatted like an email address, with the letter S, WITHOUT the word "mail":

Example: **s1234567@niagara.edu**

3) Student ID number alone, with the letter S:

Example: **s1234567**
